

Notice of Virtual Public Meetings

Spring 2021 - Phase 3

The Lower Clear Creek and Dickinson Bayou (LCCDB) Watershed Study will host a series of two virtual public meetings in March 2021 to encourage public participation and feedback regarding the findings in phase three of the study.

Please join the LCCDB study team for either of the two virtual public meetings listed below to provide input and ask questions regarding the study. Public meetings will be held on the following dates:

Tuesday, Mar. 30
(Primary Focus: Dickinson Bayou)
6 – 8 p.m.
Online Access:
<https://tinyurl.com/4w5yjxsw>
Event Password: V3buMDtPj52

Call-in: 1-408-418-9388
Meeting Access Code: 132 116 9479

Wednesday, Mar. 31
(Primary Focus: Clear Creek)
6 – 8 p.m.
Online Access:
<https://tinyurl.com/6zdtc3ke>
Event Password: w6BNqdDxm86

Call-in: 1-408-418-9388
Meeting Access Code: 132 526 5343

In August 2017, Hurricane Harvey struck the Texas coast and brought a historic amount of rainfall to the Houston region. The storm produced never-before-seen precipitation depths to Galveston, Harris, and Brazoria Counties. As was the case with most of the watersheds in the region, Clear Creek and Dickinson Bayous experienced widespread flooding, which resulted in significant flood damages.

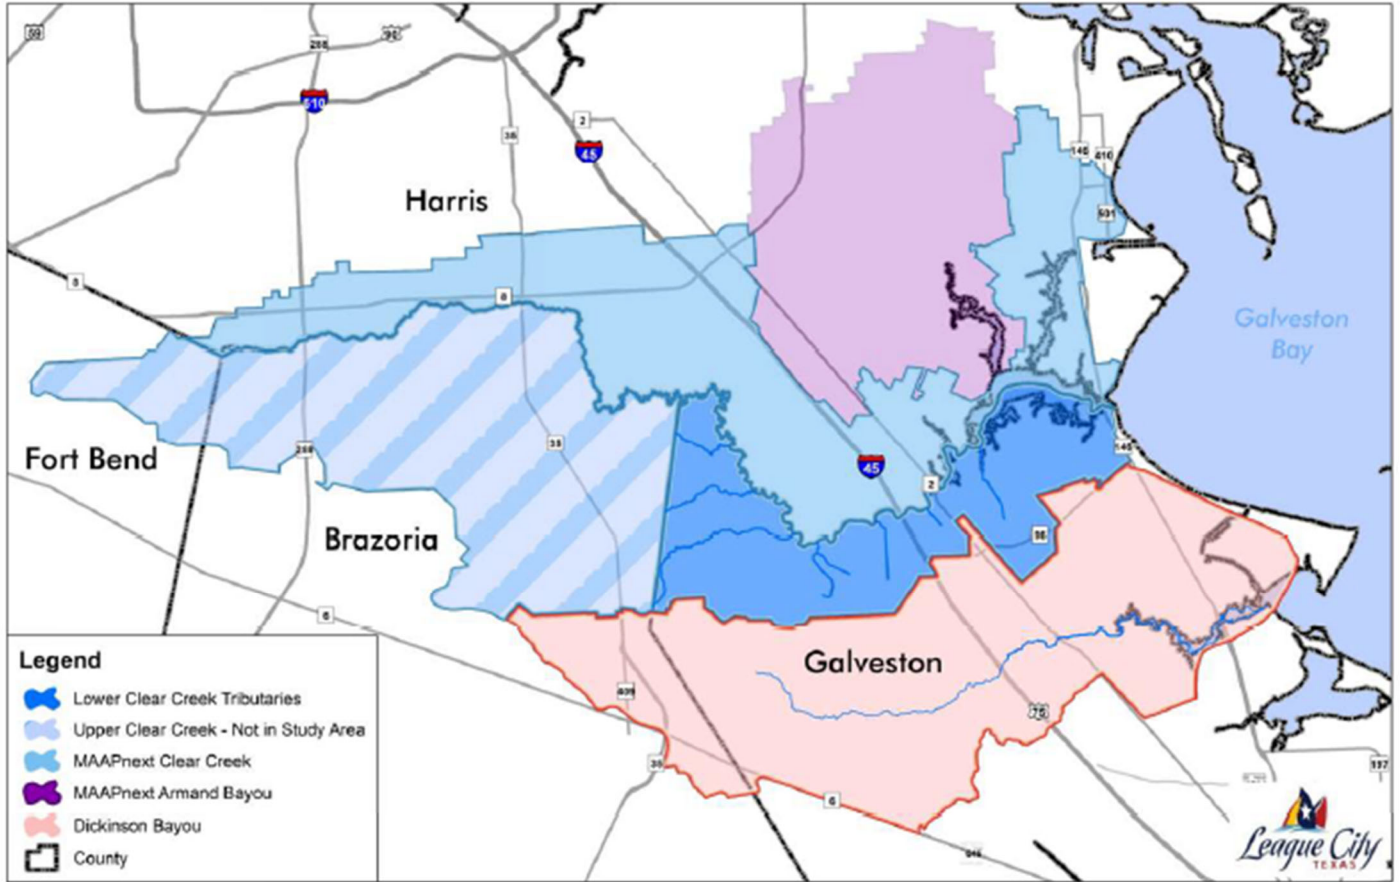

The purpose of the LCCDB Watershed Study is to develop a comprehensive flood mitigation plan for the Lower Clear Creek and Dickinson Bayou watersheds, including identifying vulnerabilities in the watersheds and development and refinement of concepts to reduce flood risks.

During each meeting, study team representatives will present the history of the Clear Creek and Dickinson Bayou watersheds, study progress, and the recommendations from the study for additional investigation and potential development. The public is invited to participate and view how the study may improve flooding in their communities. The meeting format will be a virtual meeting presentation. Representatives will be available to answer questions and take comments at the conclusion of the meeting.

Comments will be accepted at the public meetings and throughout the duration of the comment period. All comments regarding study findings should be submitted or postmarked by Thursday, Apr. 21, 2021. Written comments may be mailed to the Lower Clear Creek and Dickinson Bayou Watershed Study Community Engagement Team at 2500 Summer Street, Suite 1130, Houston, Texas 77007, or emailed to LCCDB@Leaguecity.com.

For more information about the LCCDB Watershed Study, and to access the virtual public meetings, please visit www.leaguecity.com/LCCDB and our Facebook page www.Facebook.com/LCCDB.
